

22/23 August 2025

International Course of Surgical and Molecular Pathology

Program | Friday, 22th August

Opening Ceremony	Presidium	8:00 - 8:15
COFERENCE Molecular basis of hereditary cancer	Dr. Federico Monzón	8:16 - 9:00
MODULE 1. Hereditary Breast and Ovarian Cancer		
Treatment of hereditary breast cancer	Dra. Elizabeth Escobar Arriaga	9:00 - 9:25
Hereditay cancer pathology	Dra. Isabel Alvarado Cabrero	9:25 - 9:50
Genetic testing and counseling in hereditary breast and ovarian cancer	Dra. Dione Aguilar Y Mendez	9:50 - 10:15
MODULE 2. Hereditary Gastrointestinal Cancer		
Pathology of hereditary polyposis and non-polyposis cancer	Dr. Jose Jessurun	10:15 - 10:40
Treatment of hereditary poolyposis and non-polyposis cancer	Dr. Iván Romarico González Espinoza	10:40 - 11:05
Familial gastric cancer	Dr. Eric Acosta Ponce de León	11:05 - 11:30
Genetic testing and counseling in hereditary gastrointestinal cancer	Dra. Dione Aguilar y Mendez	11:30 - 11:55
BRAKE		11:55 - 12:05
MODULE 3. Hereditary Renal Cancer		
Hereditary renal neoplasms	Dr. Juan Miguel Mosquera	12:05 - 12:30
Genetic testing and counseling in hereditary renal cancer	Dra. Alejandra Moreno Chacón	12:30 - 12:55
Targeted treatments in hereditary renal cancer	Dra. Regina Barragán-Carrillo	12:55 - 13:20
LUNCH		13:20 - 14:20
MODULE 4. Hereditary Endocrine Neoplasias		
Carcinoma medular	Dra. Nicole A. Cipriani	14:20 - 14:45
Medullary carcinoma	Dra. Nicole A. Cipriani	14:45 - 15:10
Pheochromocytomas	Dra. Jaydira del Rivero	15:20 - 15:35
Advances in the treatment of neuroendocrine carcinoma	Dra. Jaydira del Rivero	15:35 - 16:00
MODULE 5. Hereditary Soft Tissue Cancer		
Neurofibromatosis	Dr. Emilio Medina Ceballos	16:00 - 16:20
Polyostotic fibrous dysplasia	Dr. Eduardo Zambrano Tola	16:20 - 16:40
Li- Fraumeni	Dr. Eduardo Zambrano Tola	16:40 - 17:00
Genetic testing and counseling in hereditary soft tissue and bone cancer	Dra. Talia Wegman Ostrosky	17:00 - 17:25
BREAK		17:25 - 17:35
MODULE 6. Lung Cancer and Biomarkers		
Handling of biopsy specimens and surgical tissue samples	Dr. José Carlos Armendariz Ibarra	17:35 - 18:00
Study of pleural fluid, brushings, and washings	Dra. Dolores Lozano Escario	18:00 - 18:25
Molecular alterations and biomarkers	Dr. Sergio Sánchez Sosa	18:25 - 18:50
Biomarker-based treatment	Dr. Jorge A. Alatorre Alexander	18:50 - 19:15

22/23 Agosto 2025

International Course of Surgical and Molecular Pathology

Program | Saturday, 23rd August

CONFERENCE Cytology in the molecular era	Dra. Dolores Lozano Escario	8:00 - 8:45
--	-----------------------------	-------------

MODULE 1. Molecular Pathology in Soft Tissue and Bone

Genetics in Osteosarcoma	Dr. Empar Mayordomo Aranda	8:45 - 9:10
Molecular pathology of hereditary vascular lesions	Dra. Isabel Colmenero	9:10 - 9:35
Molecular testing and sarcoma experience in Puebla, Mexico	Dra. Gabriela Cristina Cuauro Ruiz	9:35 - 10:00
Importance of molecular study in Rhabdomyosarcomas	Dr. Eduardo Zambrano Tola	10:00 - 10:25

BRAKE	10:25 - 10:35
--------------	---------------

CASE SEMINAR

Caso 1	Dr. Diego Emilio Soriano Zarceño	Debate moderator	10:35 - 11:00
Caso 2	Dr. Erika Yazmin Lopez Flores	Dr . Jose Jessurun	11:00 - 11:25
Caso 3	Dr. Jose Héctor Elizondo Jasso	Dra. Melania Abreu González	11:25 - 11:50
Caso 4	Dr. Aldo Uriel Reyes Torres	Dra. Andrea Castro Sánchez	11:50 - 12:15
Caso 5	Dr. José Carlos Armendariz Ibarra	Dr. José Fabián Martínez Herrera	12:15 - 12:40
Caso 6	Dr. Oscar Rivera Vega	Dra. Alejandra Moreno Chacón	12:40 - 13:05
		Dr. Luis Muñoz Fernández
